Hang Seng Management College (HSMC) was restructured from the former Hang Seng School of Commerce and established in 2010 as a non-profit-making private university-level institution with five Schools (Business, Communication, Decision Sciences, Humanities & Social Science, and Translation), about 5,000 full-time students and 185 full-time faculty members. Adopting the unique “Liberal + Professional” education model, HSMC is a residential-type which puts quality teaching and students’ all-round development as its highest priorities. Aspiring to be a leading private university in Hong Kong, HSMC features top-quality faculty members, award-winning green campus facilities, innovative degree programmes, impactful research on corporate sustainability, and excellent student support services, with the aim of nurturing young talents with independent thinking, innovative minds, human caring and social responsibilities.

The College now invites applications for the Research Project “The development of an education and research center with automatic virtual reality platform for 3D interactive learning and big data analytics”, funded by the Quality Enhancement Support Scheme (QESS):

**Systems Engineer (or Programmer / Game Designer) – Department of Supply Chain and Information Management (Ref: SE (SCM) 2016-03-24)**

The appointee will assist in conducting virtual reality development projects, developing interactive simulation content, organizing research activities and supporting virtual reality training programmes. He/She will mainly responsible for programming development, graphic and multimedia design, research data collection and analysis, research report and presentation support, and local and overseas parties communication.

Applicants should possess:

- a recognized degree in multimedia design, engineering, computing, or a related discipline;
- at least one year working experience in multimedia, programming, system development, and simulation;
- a good understanding on virtual reality, CAVE, and big data;
- experience in using Unity and C#;
- experience in working in air cargo and container terminal will be advantageous;
- self-motivated attitude and good time-management skills; and
- the ability to work under pressure, tight schedule and dynamic requirements.

Applicants should send a full resume with expected salary via email to hr@hsmc.edu.hk or by post to Human Resources Office, Hang Seng Management College, Hang Shin Link, Siu Lek Yuen, Shatin, N.T., Hong Kong on or before 8 April 2016. Applicants who are not invited to an interview within three months may consider their applications unsuccessful.

Please indicate the post applied for and mark 'Application - Confidential' and the reference number on the cover. All information received will be treated in strict confidence. The data collected will be used for recruitment purposes. The Personal Information Collection Statement will be provided upon request.
