Junior Software Developer

Job Description

Linnovate Partners Limited

Linnovate Partners provides innovative business solutions, ranging from operational and technology outsourcing to advisory services, specialized in serving the specific needs of the Private Equity community in North Asia. With our unique value proposition – an innovative data services and reporting solution – Linnovate Partners positions itself to help Private Equity Managers and Portfolio Companies manage their businesses more efficiently and effectively, with reduced operational risks.

Our vision is to help create synergies between market participants, improve overall data transparency and consistency, consequently contributing to the sustained development of the Asia Private Equity market through standardization of market operations.

Responsibilities:

Your primary responsibilities shall be to provide technical solutions and develop the company’s cloud based platform, and to coordinate with the rest of the team working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and quality product is essential.

Your detailed responsibilities shall include, without limitation, to:

- Develop software systems using Microsoft .NET (C# & ASP .NET) and Microsoft SQL Server;
- Have web programming experience including HTML, JavaScript (including frameworks such as bootstrap, JQuery), and CSS. Experience with AngularJS a plus;
- Create, maintain and develop documentation;
- Experiences in version control system for development, as well as third-part APIs in mobile applications;
- Translate application storyboards and use cases into functional applications;
- Design, build, and maintain efficient, reusable, and reliable C# code;
- Ensure the best possible performance, quality, and responsiveness of applications;
- Utilizes storyboarding and graphic pre-designs where appropriate;
- Identify bottlenecks and bugs, and devise solutions to these problems;
- Help maintain code quality, organization, and automatization; and
- Communicate effectively in both technical and business environments;
Linnovate Partners Limited

Requirements:

- Higher Diploma or above in Information Technology or equivalent
- Knowledge in Object Oriented programming and design
- Basic understanding of database
- Interested in financial service industry
- Good analytical & communication skills, work independently and able to work under pressure;
- Immediate availability is an advantage;
- Full time work in Kwung Tong
