Orient Overseas Container Line (OOCL) is a leading international container transport and logistics service providers, operating more than 270 offices in 60 countries all over the world. Our modern and ever-expanding fleet links Asia, Europe, North America, the Mediterranean, the Indian sub-continent, the Middle East and Australasia. As a customer-focused organization, we embrace quality standards, utilizing the most advanced information technology and e-Commerce platforms in the industry.

OOCL has long been recognized as industry leader in Information Technology (IT) and e-commerce to manage the entire cargo process. Our 5 IT development centers located in San Jose, Shanghai, Zhuhai, Manila and Hong Kong, dedicated to the development of unparalleled enterprise-scale business applications, creating and providing superior solutions for the industry, supporting the client/server IT network, the company-wide intranet and customer-friendly Internet.

OOCL constitutes various learning opportunities and real world challenges to target undergraduate or postgraduate students. Our IT Summer Internship Program is now open for students, studying Computer Science, Information Engineering, Industrial Engineering, Logistics Management, or related disciplines to be part of our global IT teams. Students will be offered to gain experience in their field of study and broaden their global perspectives.
