**ABSTRACT**

In this talk, I would like to give a brief overview of the academic research and development at the University of Science and Technology of China. First, I will talk about the potential opportunities and challenges as being a faculty member in mainland China. Then, I plan to introduce the faculty recruitment policies at the University of Science and Technology of China, and the corresponding support for different talents program. Finally, I will report our recent research progress on the Internet of Things in the Era of AI.

**BIOGRAPHY**

Prof. Xiang-Yang Li is a professor and Executive Dean at School of Computer Science and Technology, USTC. He is an IEEE fellow (2015), an ACM Distinguished Scientist (2014). He was a full professor at Computer Science Department of IIT, and an EMC Visiting Chair Professor at Tsinghua University (2013-2016). He received China NSF Outstanding Overseas Young Researcher (B) in 2008. Prof. Li received MS (2000) and PhD (2001) degree at Department of Computer Science from University of Illinois at Urbana-Champaign. He received a Bachelor degree at Department of Computer Science from Tsinghua University, P.R. China, in 1995. He published a monograph "Wireless Ad Hoc and Sensor Networks: Theory and Applications". He also co-edited the book "Encyclopedia of Algorithms".

His research interests include wireless networks, mobile computing, privacy and security, cyber physical systems, social networking, and algorithms. Prof. Li and his students won five best paper awards (IEEE GlobeCom 2016, IEEE IPCCC 2014, ACM MobiCom 2014, COCOON 2001, IEEE HICSS 2001), the best demo award from ACM MobiCom 2012, the best poster award from ACM MobiCom 2016, and was selected as best paper candidates three times (BigCom 2015, ACM MobiCom 2008, ACM MobiCom 2005).

Prof. Li has served or is serving as an editor of several journals, including IEEE/ACM Transaction on Networking, IEEE Transaction on Parallel and Distributed Systems, and IEEE Transaction on Mobile Computing. He served at various capacities (conference chair, TPC chair, or local arrangement chair) in a number of conferences, including TPC chair of ACM MobiHoc 2014. His research has been supported by NSF, NSFC, and RGC Hong Kong.
